

Maple Cross to
Rickmansworth cycle
improvements

Have you tried the new cycle route along roads through Mill End? It is marked in red on the plan (the green lines are ward boundaries). The cycle route uses existing roads and provides a clearly signed link between Maple Cross, Mill End and Rickmansworth avoiding main roads. We have used existing street nameplate mountings like the example shown, to mark the route. Dropped kerbs and safety barriers will help both pedestrians and cyclists. The route is part of the plan for South West Herts to provide well-marked cycleways throughout the whole area.
