Hertfordshire Warmer Homes

In partnership with the ten district & borough councils of Hertfordshire and Hertfordshire County Council

Hertfordshire Warmer Homes

Need help to stay warm in your home or reduce home energy bills?

Older people, young children and those with a long term health condition (e.g. heart disease or respiratory illness) are recommended by the World Health Organisation to heat the living room to 21°C (70°F) during the day and the bedroom to 18°C (64°F) at night.

Did you know... you could be entitled to free or discounted home energy improvements through the **Hertfordshire Warmer Homes scheme?**

Energy efficiency measures such as loft or cavity wall insulation and heating repair could help to:

- Make your home easier to heat
- Reduce the cost of your energy bills
- Reduce carbon emissions

Could you or someone you know benefit from the **Hertfordshire Warmer Homes scheme?**
