## **1. Introduction**

In accordance with the Traffic Management Act 2004, local authorities that carry out civil parking enforcement are expected to be accountable and transparent and as such are required to publish an annual report within 6 months of the end of every financial year. They must also make statistical returns to the Department of Transport on 1<sup>st</sup> October for the previous financial year, annually.

*The Statutory Guidance to Local Authorities on the Civil Enforcement of Parking Regulations* suggests what local authorities' annual reports might contain. This report includes these items but goes further in terms of explaining the statistics in the context of Three Rivers District Council's overall policy objectives. Where possible, the Council's performance is benchmarked against previous years' figures, national standards, local performance indicators or by reference to figures issued by nearby local authorities with similar demographics.

## **2. Background**

Three Rivers Council adopted Decriminalised Parking Enforcement (DPE) powers in July 2001. In respect of on-street parking enforcement, Three Rivers Council acts on behalf of Hertfordshire County Council (the highway authority) under the terms of a parking agency agreement between the two authorities. As the parking authority Three Rivers Council is responsible for the enforcement of its own off-street car parks.

Three Rivers Council works in partnership with Watford Council (who also work in partnership with Dacorum Council) and Watford Council hosts a parking enforcement contract, with an external parking enforcement contractor, Indigo Park Services UK. This contract provides parking enforcement officers, operation of parking shops, back office functions, pay and display maintenance, permit issue etc.

Watford and Dacorum will each produce their own annual reports. This report covers only the activity of Three Rivers District Council for the period April 2016 – March 2017.

## **3. The Management of On and Off Street Parking**

In many streets within the Three Rivers District demand for on-street parking exceeds that available and problems associated with the parking of motor vehicles continue to worsen as car ownership continues to increase.

If on street parking were not properly managed then levels of highway safety and amenity would decrease for all road users including motorists, cyclists and pedestrians, children, the disabled and the elderly, and journey times would increase for all vehicles including public transport and emergency vehicles. It is also probable that uncontrolled parking would lead to less

parking availability at prime locations like stations and shopping areas and certain residential areas, all of which might become monopolised by long term parked vehicles.

The Council is required to properly manage on-street parking to ensure that dangerous and/or obstructive parking is removed whilst at the same time seeking to maximise its availability for the benefit of all road users. To assist in the accomplishment of this the Council may make Traffic Regulation Orders under the Road Traffic Regulation Act, in consultation with the public in general and those directly affected in particular.

#### **4. The Purpose of Civil Parking Enforcement**

Local authorities have been able to enforce their own off-street car parks for many years; however until recently most on-street parking enforcement was undertaken by police officers or police traffic wardens.

In the mid-1990s central government gave local authorities the right to apply for powers to enforce on-street parking restrictions. The adoption of what was then called Decriminalised Parking Enforcement (DPE) but is now termed Civil Parking Enforcement, or CPE, spread rapidly across the United Kingdom in the following fifteen years. The Secretary of State has now taken reserve powers within the Traffic Management Act 2004 to compel any remaining local authorities to adopt CPE once a 'critical mass' has adopted these powers.

There were three main drivers for decriminalisation:

- Police forces had signalled to central government that that they could no longer regard parking enforcement as a priority function given other demands upon their limited resources. In many areas traffic wardens had effectively been withdrawn, causing growing parking anarchy on our streets.
- It was considered that many parking "offences" would be better dealt with under civil law procedures, which are typically more cost effective and less formal to operate, rather than allow them to clog up the criminal courts.
- Local authorities themselves argued that as representatives of their community they were best placed to design and run an enforcement regime that met the priorities of that community. In Three Rivers' case, this was particularly relevant because residents living in the Rickmansworth town centre area were calling for controlled parking zones but the Police would not agree to enforce them – indeed, Hertfordshire Constabulary were one of the first to withdraw the traffic warden service.

The primary purpose of CPE, as identified in statutory guidance, is to support local authorities (county and district) in their delivery of their overall transport objectives in areas such as those detailed below.

- Managing the traffic network to ensure free movement of traffic, (including pedestrians and cyclists), as required under the TMA Network Management Duty.
- Improving road safety.
- Improving the local environment.
- Improving the quality and accessibility of public transport.
- Meeting the needs of people with disabilities, some of whom will be unable to use public transport and depend entirely on the use of a car.
- Managing and reconciling the competing demands for kerb space.

These and other objectives that a local authority may seek to meet through its CPE operations are achieved primarily through encouraging compliance with parking restrictions – and it is with this objective in mind that Three Rivers Council enforces parking both on and off-street throughout the district.

It is not always easy to prove that CPE has a positive effect. Driving along a free-flowing road or walking along a footway without being blocked by parked cars is rarely noted or associated with CPE. Likewise, finding space in a clean, safe, well lit car park is taken for granted. It is often noticed, however, when these essential benefits are not available.

Central government is also very clear in explaining what CPE is *not* about. In particular, government emphasises that CPE is not to be regarded as a revenue raising exercise. Whilst Government accepts that local authorities may seek to make their CPE operations as close as possible to self-financing as soon as possible, it advises that any shortfall must be met from within existing budgets rather than falling on the local or national taxpayer. (See Section 8 of this report).

## **5. Civil Parking Enforcement in Three Rivers**

CPE in Three Rivers is currently undertaken by a team of 4 Civil Enforcement Officers spread around the district. The enforcement function is contracted out and the enforcement contractor is managed by Watford Council, operating according to a contract in accordance with policy objectives agreed by both Councils. Subsequent processing of Penalty Charge Notices, is undertaken by the Council. This is in accordance with the regulations; once issued, all processing of PCN's, including the investigation of challenges, representations and appeals, is dealt with by Council officers, working in accordance with statute, regulations, guidance and Council policy.

Although it has the powers, Three Rivers Council does not clamp or remove vehicles. Clamping is no longer favoured as an enforcement tool, as all too often it simply results in a “problem” vehicle being made to remain at an inappropriate location for longer than is necessary. The cost of setting up and running a removal operation, including a vehicle pound for the purpose of storing vehicles would be disproportionate to the benefit for such a small Council such as Three Rivers.

## 6. Enforcement Activity – On street and in Car Parks

The number of PCN's issued in Three Rivers since 2010/11 is detailed below:

Year	Total PCN's
2010/11	4295
2011/12	3636
2012/13	3784
2013/14	3816
2014/15	3949
2015/16	3902
2016/17	4412

The primary purpose of CPE is to ensure compliance with parking controls and improve road safety; therefore enforcement of car parks, where road safety considerations are slight, is secondary to enforcement of yellow line restrictions on the highway, which have more evident safety connotations. That said, our towns rely on visitors to local shops, businesses and restaurants and enforcement of car parks is important, both to ensure turnover of vehicles and that car park users correctly pay and display or abide by the regulations and conditions, for instance, not exceeding the maximum stay period.

The proportion of on and off-street PCN's issued in previous years from 2010/11 is given in the table below.

Year	On-Street PCN's	Off-Street PCN's
2010/11	63.74%	36.26%
2011/12	60.50%	39.50%
2012/13	66.36%	33.64%
2013/14	71.00%	29.00%
2014/15	68.00%	32.00%
2015/16	71.00%	29.00%
2016/17	68.00%	32.00%

The number of PCN's issued for the **main** on-street and off-street parking contraventions is detailed in **Appendix A** (see page 12).

With effect from 2008/09, the government introduced differential penalty charges, whereby some parking contraventions attract a higher level penalty charge according to their perceived seriousness. These are typically on-street contraventions. Details of parking contraventions enforced in Three Rivers during 2016/17 and their associated penalty charge are detailed in **Appendix B** (see page 14).

The number of higher level and lower level PCN's issued by Three Rivers Council under the Traffic Management Act 2004 since 2010/11 is given below.

<b>Year</b>	<b>Higher Level PCN's (£70)</b>	<b>Lower Level PCN's (£50)</b>
2010/11	2252	2043
2011/12	1740	1896
2012/13	1808	1976
2013/14	1984	1832
2014/15	2172	1777
2015/16	2302	1132
2016/17	2382	2030

Three Rivers Council will continue to ensure that its enforcement activity is tailored to meet the enforcement and other policy objectives of the authority whilst recognising that flexibility is needed to respond to an environment that can change on an almost daily basis.

### **7. Enforcement activity – Representations, Appeals and Beyond**

A 50% discount applies to a PCN paid within 14 days of the date of issue (with the date of issue counting as day 1). The number of PCN's issued in previous years and paid at the discounted rate since 2010/11 is as follows:

<b>Year – PCN's Issued</b>	<b>PCN's Paid at Discount</b>
2010/11 – 4295	2921 (68.02%)
2011/12 - 3636	2387 (65.64%)
2012/13 – 3784	2480 (65.54%)
2013/14 - 3816	2518 (66.00%)
2014/15 – 3949	2527 (64.00%)
2015/16 – 3902	2458 (63.00%)
2016/17 - 4412	2780 (63.00%)

The above payments will either have been made immediately upon receipt of the PCN or following an informal challenge which the Council has declined. This illustrates the fact that the majority of motorists who receive a PCN accept their liability for the penalty charge and make prompt payment.

Following the 14 day period the penalty charge reverts to its full value and the charge increases in set steps thereafter. The number of PCN's issued in previous years that were paid at the full rate or higher since 2010/11 is as follows:

<b>Year – PCN's Issued</b>	<b>PCN's Paid at Full Charge or Higher</b>
2010/11 - 4295	507 (11.80%)
2011/12 - 3636	484 (13.31%)
2012/13 - 3784	466 (12.31%)
2013/14 – 3816	458 (12.00%)
2014/15 – 3949	513 (13.00%)
2015/16 – 3902	429 (11.00%)
2016/17 – 4412	574 (13.00%)

\*A number of PCN's issued in 2016/17 remain the subject of active enforcement; therefore this figure will increase.

Any motorist who receives a PCN is entitled to challenge its issue. The Traffic Management Act 2004 sets out a number of statutory grounds on which a PCN may be challenged. **Appendix C** (see page 20).

In addition to the statutory grounds which, if established, *require* the Council to cancel liability for a penalty charge, a large number of motorists contact the council offering mitigating circumstances which they hope will lead to cancellation of the penalty charge on discretionary grounds. Three Rivers Council has adopted a set of guidelines to guide its staff in enforcement decisions in a wide range of circumstances. In the spirit of openness and transparency these have been published in an abridged format on the Council's website at <http://www.threerivers.gov.uk/egcl-page/parking-penalties>

No set of guidelines can ever cover the entire range of situations in which motorists find themselves; however these guidelines are invaluable in establishing the spirit of the Council's enforcement practices.

Typically around 20% of PCN's issued are cancelled upon receipt of a challenge or representation and the principle reasons ascribed to cancellation of PCN's during 2016/17 are detailed in **Appendix D** (see page 20). Whilst it is difficult to offer evidence to support the claim, experience suggests that the Council's enforcement guidelines and the philosophy that underpins them are set at the more tolerant end of the spectrum.

A number of PCN's are also written off each year, typically because the motorist/owner cannot be traced – either because of an inadequate record at the DVLA or because the motorist/owner is untraceable. Typically around 6 to 20% of PCN's are written off for this reason, depending on local demographics.

The number and percentage of PCN's cancelled in previous years, since 2010/11, either following a challenge or because the motorist is untraceable, is as follows:

Year	PCN's Cancelled	PCN's Written Off
2010/11	661 (15.38%)	172 (4.00%)
2011/12	658 (18.09%)	131 (3.60%)
2012/13	552 (14.59%)	67 (1.42%)
2013/14	572 (15.00%)	76 (2.00%)
2014/15	553 (14.00%)	79 (2.00%)
2015/16	585 (15.00%)	117 (3.00%)
2016/17	618 (14.00%)	132 (3.00%)

\*A number of PCN's issued in 2016/17 remain the subject of active enforcement; therefore this figure will increase.

Of the 4412 PCN's issued in 2016/17:

1. 799 were the subject of an "informal" challenge (normally made within 14 days of issue of the PCN).

Of the above, 406 PCN's were cancelled at this challenge stage.

2. 212 were the subject of a statutory representation upon receipt by the vehicle's owner of a Notice to Owner (a letter sent to a vehicle's owner no earlier than 28 days after the issue of a PCN).

Of the above, 102 were cancelled at this statutory representations stage.

The following table shows performance for 2016/17 against the above criteria and our partner authorities, Watford and Dacorum.

Local Authority	PCN's Issued	Paid PCN's	Cancelled PCN's	Live PCN's
<b>Three Rivers</b>	4,412	77.00%	14.00%	9.00%
<b>Watford</b>	22,207	64.00%	13.00%	23.00%
<b>Dacorum</b>	11,494	70.00%	18.00%	12.00%

Should the Council reject a statutory representation, the vehicle's owner is entitled to appeal that decision to the independent Parking Adjudicator.

Of the 4,412 PCN's issued in 2016/17:

1. 6 were the subject of an appeal to the Independent Parking Adjudicator – an appeal rate of 0.13%.
2. Of these 6 appeals, none were upheld by the Adjudicator and 4 (67%) were rejected by the Adjudicator (won by the Council). 2 were not contested by the Council (33%).

The following table shows Three Rivers District Council's performance at appeal in 2015/16 and 2016/17, together with benchmarking information relating to our partner authorities, Watford and Dacorum:

Appeals 2016/17	No. of appeals	Rate of appeal per PCN	Not contested by council	Allowed by Adjudicator	Allowed by Adjudicator inc. not contested	Refused by Adjudicator (Council win)	Awaiting decision
<b>Three Rivers</b>	6	0.13%	33%	0%	33%	67%	0%
<b>Watford</b>	45	0.20%	11%	22%	33%	67%	0%
<b>Dacorum</b>	16	0.14%	37.5%	12.5%	50%	50%	0%

Appeals 2015/16	No. of appeals	Rate of appeal per PCN	Not contested by council	Allowed by Adjudicator	Allowed by Adjudicator inc. not contested	Refused by Adjudicator (Council win)	Awaiting decision
<b>Three Rivers</b>	13	0.33%	0%	8%	8%	92%	0%
<b>Watford</b>	78	0.33%	19%	23%	42%	45%	0%
<b>Dacorum</b>	16	0.14%	6%	44%	50%	50%	0%

As well as being an essential judicial “safety valve” for the CPE process, individual appeal decisions and of course the Adjudicators’ Annual Report contain findings, information and advice which can be very helpful to local authorities in their operation of their parking enforcement and back office regimes. Three Rivers Council and their partners have always used this information positively to improve their services and enforcement practices, where practicable.

### **Debt Registration and Bailiffs**

If a motorist does not pay or successfully challenge a PCN (where an accurate address is held by the DVLA) the notice may be registered as a debt in the County Court. Only at this stage does a penalty charge become a debt.

In 2016/17 - 351 PCN’s were registered as a debt in the County Court.

Failure to pay this debt within the timescale specified will result in the passing of the debt to bailiffs.

In 2016/17 - 239 cases were referred to the Council’s bailiffs and £10,175 has been recovered.

## **8. Financial Aspects of Civil Parking Enforcement**

Under the terms of the Road Traffic Act 1991, which governed Decriminalised Parking Enforcement until April 2008, local authorities were required to make their parking enforcement regime self-financing as soon as possible. Local authorities were not, however, allowed to design and run their enforcement regime to make a surplus. Any surplus generated was ‘ring fenced’ to fund related functions such as passenger transport or car park improvements.

As more and more local authorities took on DPE powers, government increasingly recognised that for many, achieving break-even was simply not possible. Accordingly, the Traffic Management Act 2004 weakened this requirement. From 1 April 2008 local authorities have been able to apply for CPE powers without demonstrating that it will break even, but on the understanding that any deficit would be met from within existing funding. Government has made it quite clear that national or local taxpayers are not to bear any shortfall.

The annual cost of enforcement (contract cost) and annual income from PCN's issued by Three Rivers District Council is shown below:

### On Street

Year	Contract Costs	Staffing, Supplies & Other costs	PCN Income	Pay & Display Income On Street	(Surplus)/ Deficit
2010/11	165,740	32,660	(115,010)	incl in off-street	83,390
2011/12	163,150	46,330	(112,240)	incl in off-street	97,240
2012/13	183,630	56,570	(113,190)	incl in off-street	127,010
2013/14	219,610	62,100	(150,430)	incl in off-street	131,280
2014/15	183,620	81,690	(140,730)	(9,802)	114,778
2015/16	193,260	94,410	(147,390)	(9,699)	130,581
2016/17	195,670	71,500	(179,900)	(8,600)	78,670

### Off Street

Year	Contract Costs	Staffing, Supplies & Other costs	Penalty Charges	Pay & Display Income Off Street	(Surplus)/ Deficit
2010/11	94,054	18,529	(65,266)	(79,494)	(32,177)
2011/12	107,112	30,405	(73,692)	(81,599)	(17,774)
2012/13	94,095	28,987	(57,990)	(95,963)	(30,871)
2013/14	62,761	17,754	(43,000)	(100,138)	(62,623)
2014/15	86,436	38,454	(66,244)	(97,007)	(38,361)
2015/16	78,931	38,566	(60,201)	(98,803)	(41,507)
2016/17	92,078	33,637	(84,654)	(96,149)	(55,087)

It is a commonly held belief that parking enforcement is a purely revenue raising exercise; however it will be seen that (in common with many smaller local authorities) Three Rivers Council does not break even on its enforcement activities.

However, the above deficit is effectively improved from the income from on and off street pay and display parking, permit charges. The whole operation is expected to be entirely self funding at no expense to local taxpayers, however, the deficit is funded from existing Council budgets. The Council is working to eliminate the current deficit by regular reviews of the business case, charging levels and enforcement regimes. The Council's current policy is to retain short term free parking in main shopping centres, because this is known to contribute to the vitality and viability of our relatively small centres.

## **9. Future Plans**

The traffic management objectives of civil parking enforcement as identified by Government and listed at section 4 of this report will remain at the core of this Council's enforcement service and its practices.

Within a properly managed but limited budget the Council will maintain its ongoing annual programmes for the introduction of new parking restrictions and parking management schemes where considered necessary. Problem areas will continue to be identified by the monitoring of requests by the highway authority and the local community.

The programme will include schemes to effectively manage on-street parking in areas of high parking demand and the continuation of its annual programme of refurbishment of public car parks, making them safer to use through new lighting, and making them more accessible for people with disabilities.

## 10. Appendices

### Appendix A

The number of PCN's issued during 2016/17 for the **main** on-street and off-street parking contraventions is shown below;

<b>On Street Contraventions &amp; Codes</b>	<b>Number</b>
01 - Parked in a restricted street (yellow lines)	782
02 – Parked where loading/unloading is not permitted	39
12 – Parked in a permit/shared use bay without permit/voucher/ticket	689
19 – Parked in a residents or shared use space with an invalid permit or voucher	364
25 – Parked in a loading place without loading.	203
30 – parked for longer than permitted	650
40 - Parked in a disabled bay/space without valid blue badge	170
47 – stopped on a bus stop or stand	21
48 – stopped in a restricted area outside a school	4

<b>Off Street Contraventions</b>	<b>Number</b>
80 – Parked for longer than the maximum period permitted	484
81 – Parked in a restricted area in a car park	3
82 – Parked after expiry of paid for time	32
83 - Parked in a car park without a valid ticket/voucher	258
85 – Parked in a permit bay in a car park without displaying valid permit	306
86 – Parked beyond bay markings	246
87 – Parked in a disabled bay without displaying valid blue badge	92

## Appendix B

Parking Contraventions enforced in Three Rivers, together with their penalty charge are shown below, together with the observation or grace periods allowed before the penalty can be issued.

### On-Street Codes

<u>Code</u>	<u>Contravention</u>	<u>Avoid a Penalty Charge Notice</u>
<u>01</u>	<p><u>Parked in a restricted street during prescribed hours</u></p> <p><b>(PCN Higher - £70)</b></p>	<p>When parking on single yellow lines read the sign plate indicating the times that waiting is prohibited. In Controlled Parking Zones no sign will be present alongside single yellow lines and the restriction will be effective during the same controlled hours of the zone. These times are shown on the zone entry signs. Double yellow lines do not require a time plate and prohibit waiting at all times. You may only wait on these lines if you are carrying out loading/unloading or allowing passengers to board or alight. Blue badge holders may wait on yellow lines for up to 3 hours but must ensure that their clock is correctly set and prominently displayed. It is not uncommon for restrictions to change or for times to differ on opposite sides of the road so read all signs present carefully.</p> <p>Observation Period: 5 minutes.</p>
<u>02</u>	<p><u>Parked where loading or unloading is prohibited</u></p> <p><b>(PCN Higher - £70)</b></p>	<p>You must not wait at a location where loading restrictions are in force. They apply to both single and double yellow lines and will be supported by signage and yellow chevrons on the kerb. A single chevron denotes a loading restriction between specific times and a double chevron prohibits loading at all times. Blue badge holders are not permitted to park where loading is prohibited.</p> <p>Observation Period: None.</p>
<u>05/05s</u>	<p><u>Parked after expiry of paid for time at a pay and display/voucher bay</u></p> <p><b>(PCN Lower - £50)</b></p>	<p>Ensure that you purchase adequate time to allow for the duration of your stay and move your vehicle following expiry of the pay and display ticket. Any voucher relied upon must be correctly validated and you should check that all tickets or vouchers displayed are clearly visible before leaving your vehicle, particularly after closing doors. Blue badge holders may park in pay and display bays or shared use bays without any time restriction.</p> <p>Observation Period: 6 minutes.</p>
<u>06/06s</u>	<p><u>Parked without payment of the initial charge without a clearly displayed ticket/permit/voucher</u></p> <p><b>(PCN Lower - £50)</b></p>	<p>Ensure that you have the means to make payment upon arrival at a location where payment is required. Ensure that any voucher relied upon is correctly validated and that all tickets or vouchers are prominently displayed, prior to leaving your vehicle, particularly after closing doors. It is advisable to ensure that any old tickets or vouchers are removed from your vehicle to avoid any confusion. Pay and display holders are available from the Parking Shop free of charge.</p>

Observation Period: 5 minutes.

---

<u>07/07s</u>	<p><u>Parked where additional payment made to extend the stay beyond the time initially purchased</u> (meter feeding)</p> <p><b>(PCN Lower - £50)</b></p>	<p>Ensure that you purchase adequate time to cover the duration of your stay. Upon expiry of the time shown on your pay and display ticket the vehicle must be moved to another location. Do not purchase any additional tickets beyond the initial ticket paid for.</p> <p>Observation period: None.</p>
<u>12</u>	<p><u>Parked in a residents or shared use parking place or zone without clearly displaying either a permit or voucher or pay and display ticket issued for that place</u></p> <p><b>(PCN Higher - £70)</b></p>	<p>Read all applicable signage upon entering a controlled parking zone and any signs alongside the bays that you wish to park within. You can then be sure that you have parked within the correct bay. Ensure that any voucher relied upon is correctly validated and that all tickets or vouchers are prominently displayed, particularly after closing doors.</p> <p>Observation Period: 5 minutes.</p>
<u>19</u>	<p><u>Parked in a residents' or shared use parking place displaying an invalid voucher or an invalid pay and display ticket</u></p> <p><b>(PCN Lower - £50)</b></p>	<p>Read all applicable signage upon entering a controlled parking zone and any signs alongside the bays that you wish to park within. This will tell you when the restrictions are in force and if they apply on match days or evenings. Ensure that all visitor vouchers or pay and display tickets relied upon are correctly validated and displayed. Blue badge holders may park in shared use and pay and display bays without time limit.</p> <p>Observation Period: 5 minutes.</p>
<u>20</u>	<p><u>Parked in a loading gap marked by a yellow line</u></p> <p><b>(PCN Higher - £70)</b></p>	<p>Ensure that you read all applicable signage alongside the location where you wish to park. You should not park on a loading gap unless you have a genuine need to load or unload.</p> <p>Blue badge holders are not permitted to park in loading areas, unless loading or unloading.</p> <p>Observation Period: 5 minutes.</p>
<u>21</u>	<p><u>Parked in a suspended bay/space or part of bay/space</u></p> <p><b>(PCN Higher - £70)</b></p>	<p>Ensure that you read the signage at the location where you wish to park. This will tell you which bays have been suspended and the relevant times and dates. No vehicle is permitted to park within a suspended bay unless they have been granted express permission to do so.</p> <p>Observation Period: None.</p>
<u>22</u>	<p><u>Re-parked during determined time of leaving a bay/space in the same parking place</u></p> <p><b>(PCN Lower - £50)</b></p>	<p>Ensure that you have read the signage and do not return to any location within the no return period stated. Upon expiry of any paid for or permitted time ensure that the vehicle is moved to another location.</p> <p>Observation Period: 5 minutes.</p>
<u>23</u>	<p><u>Parked in a parking place or area not designated for that class of vehicle</u></p> <p><b>(PCN Higher - £70)</b></p>	<p>Ensure that you read any applicable signage alongside the location where you wish to park. Do not park in bays which are marked for the use of specified vehicles, such as motorcycles, unless you are driving that class of vehicle.</p> <p>Observation Period: 5 minutes.</p>

24	<p><u>Not parked correctly within the markings of the bay or space</u></p> <p><b>(PCN Lower - £50)</b></p>	<p>Ensure that you check that your vehicle is correctly parked prior to leaving the location where you have parked. You should seek alternative parking if the purpose does not apply to your vehicle.</p> <p>Observation Period: 5 minutes.</p>

## Appendix C

**This shows the statutory grounds on which a PCN may be challenged.**

- Was not the owner of the vehicle in question, at the time of the contravention.
- The vehicle was parked by a person who was in control of it without owners consent (proof such as police crime report number and police station address or insurance claim details required).
- Hire firm and the person hiring the vehicle has signed a statement of liability (copy of valid signed hire agreement required).
- The alleged contravention did not occur (explain reasons).
- The penalty exceeded the amount applicable in the circumstances of the case (that is if the motorist has been asked to pay more than he is legally liable to pay).
- The relevant designation order was invalid (the motorists believes the parking restriction in question was invalid or illegal).
- There has been a procedural impropriety on behalf of the authority (state why you believe the authority has acted improperly or in breach of the regulations).
- The penalty charge notice was paid, either in full or at the discount rate within the discount period.

In addition to the above, if there are any other mitigating circumstances why the motorist considers the Council should cancel the penalty charge notice, they can set out those reasons in full.
