

Treasury Management Policy

2021/22

1. Summary

- 1.1. This report sets out the Council's Treasury Management Policy
- 1.2. The Chartered Institute of Public Finance and Accountancy (CIPFA) defines treasury management as:

“The management of the local authority’s investments and cash flows, its banking, money market and capital market transactions; the effective control of the risks associated with those activities; and the pursuit of optimum performance consistent with those risks”.
- 1.3. This report supports the Council's Capital Strategy and provides additional detail on how the Council manages its Treasury Management activity.
- 1.4. The Treasury Management Policy details the policies, practices, objectives and approaches to risk management of its treasury management activities, which is to be monitored by the Audit Committee.
- 1.5. The Council's investment policy's primary objectives are safeguarding the repayment of the principal and interest of its investments on time, and then ensuring adequate liquidity, with the investment return being the final objective. The policy allows the Portfolio Holder, in consultation with the Director of Finance, the delegated authority to approve any variation to the Treasury Management Policy during the year with the objective of maximising the Council's returns without significantly increasing risk.

2. Risks

- 2.1 The strategy details the approach taken to management of Treasury Risk. This is principally through ensuring that the main Treasury risks are managed. These risks are:

Liquidity Risk: That the Council may not have the cash it needs on a day to day basis to pay its bills.

This risk is managed through forecasting and the retention by the Council of an adequate working capital balance. In addition, through the Public Works Loan Board and other organisations, the Council is able to access short term borrowing, usually within 24 hours.

Interest Rate Risk: That the costs and benefits expected do not materialise due to changes in interest rates.

This risk is managed through the placing of different types and maturities of investments, the forecasting and monitoring of the interest budget (with assistance from the Council's retained advisors).

Exchange Rate Risk: That losses or gains are made due to fluctuations in the prices of currency.

The Council does not engage in any significant non-sterling transactions.

Credit and Counterparty Risk: That the entity holding Council funds is unable to repay them when due.

This risk is managed through the maintenance of a list of authorised counterparties, with separate limits to ensure that the exposure to this risk is limited

Refinancing Risk: That the loans taken by the Council will become due for repayment and need replacing at a time when there is limited finance available or interest rates are significantly higher.

The timing of loan maturities is monitored along with interest rate forecasts. Officers ensure that due dates are monitored and seek advice from the Council's advisors about when to raise any finance needed.

Legal and Regulatory Risk: That the Council operates outside its legal powers.

This risk is managed through the Council's training and development of Officers involved in Treasury Management, the independent oversight of Internal and External Audit, and the advice (for example on the contents of this strategy) taken from the Council's Treasury advisors.

Fraud, Error and Corruption: The risk that losses will be caused by impropriety or incompetence is managed through the controls in the Council's financial procedures. For example, the segregation of duties between those making investment decisions and those transferring funds.

Market Risk: That the price of investments held fluctuates, principally in secondary markets.

The majority of the Council's investments are not traded, but where they are (e.g. Property investment portfolio) the main investments' value comes from the income they generate which is generally long term and secure.

3. Treasury Indicators: Limits to Borrowing Activity

- 3.1 There are two limits on external debt: the 'Operational Boundary' and the 'Authorised Limit'. Both are consistent with existing plans and the proposals in the budget report for capital expenditure and financing, and with approved treasury management policy statement and practices.

- 3.2 The key difference is that the Authorised Limit cannot be breached without prior approval of the Council. The Operational Boundary is a more realistic indicator of the likely position. The difference between the authorised limit and operational boundary for borrowing is that the authorised limit includes a head room for borrowing for future known capital needs now. The Authorised Limit represents the limit beyond which borrowing is prohibited, and needs to be revised if necessary by members.

3.3 These indicators are set out in the Capital Strategy.

4. Borrowing Strategy

4.1 The Council's treasury team maintains a cashflow forecast and works its liquidity requirements within this forecast; it may, on rare occasions, be necessary to borrow short-term for cashflow purposes. This will be in the form of short term debt or overdraft facilities and is normally for small amounts for minimum durations. As this is based on need and has a defined repayment period it is not normally included within the limits set above.

4.2 The Council will not borrow more than or in advance of its needs purely in order to profit from the investment of the extra sums borrowed. Any decision to borrow in advance will be within forward approved Capital Financing Requirement estimates, and will be considered carefully to ensure that value for money can be demonstrated (ie: the cost of holding does not outweigh the benefits of early borrowing) and that the Council can ensure the security of such funds. Any associated risks will be approved and reported through the standard reporting method.

5. Investment Policy

5.1 The Council's investment policy has regard to the MHCLG's Guidance on Local Government Investments and the CIPFA Treasury Management in Public Services Code of Practice and Cross Sectoral Guidance Notes ("the CIPFA TM Code"). The Council's investment priorities are security first, liquidity second, then yield.

5.2 Investment instruments identified for use in the financial year are listed below under the 'Specified' and 'Non-Specified' Investments categories. Counterparty limits will be as set through the Council's Treasury Management Practices Schedules and are detailed at Annex A.

5.3 As part of its diversification of investments, the Council has invested some of its core funds (i.e. funds not immediately required for cashflow reasons) in longer-term investment property instruments. These are in the form of individual assets directly owned by the council. Although the Council has no current investments or plans to invest in pooled property funds, these are an option that could be considered in the future. All property investments are controlled through the Property Investment Board (PIB) and each investment is subject to its own business case and appraisal before a decision to invest is taken and before any Council funds are committed.

6. Creditworthiness policy

6.1 The Council will ensure:

- It maintains a policy covering both the categories of investment types it will invest in and the criteria for choosing investment counterparties with adequate security, and monitoring their security. This is set out in the Specified and Non-Specified investment sections below.
- It has sufficient liquidity in its investments. For this purpose it will set out procedures for determining the maximum periods for which funds may prudently be committed. These procedures also apply to the Council's prudential indicators covering the maximum principal sums invested.

6.2 The Director of Finance will maintain a counterparty list in compliance with the following criteria and will revise the criteria and submit them to Council for approval as necessary and will provide an overall pool of counterparties considered high quality.

6.3 Credit rating information is supplied by our treasury consultants on all active counterparties that comply with the Council's criteria. Any counterparty failing to meet the criteria would be omitted from the counterparty (dealing) list. Any rating changes, rating watches (notification of a likely change), rating outlooks (notification of a possible longer term change) are provided to officers almost immediately after they occur and this information is considered before dealing.

7. Counterparty Categories

7.1 The Council uses the following criteria in choosing the categories of institutions in which to invest:

- **Banks 1 - Good Credit Quality**
The Council will only use UK banks or foreign banks trading in the UK in sterling denomination and which meet the Rating criteria.
- **Banks 2 – The Council's Own Banker**
For transactional purposes, if the bank falls below the above criteria, it will be included, although in this case balances will be minimised as far as possible in both monetary size and time within operational constraints.
- **Bank Subsidiary and Treasury Operations**
The Council will use these where the parent bank has the necessary ratings outlined above and the parent has provided an indemnity guarantee.
- **Building Societies**
The Council will use all Societies which meet the ratings for banks outlined above.
- **Specific Public Bodies**
The Council may lend to Public Bodies other than Local Authorities. The criterion for lending to these bodies is that the loan has been approved by Council.
- **Money Market Funds AAA Rated**
The Council may lend to Money Market Funds in order to spread its investment risk.
- **Local Authorities**
A limit of £5m per authority will be applied.
- **Debt Management Deposit Account Facility**
A Government body which accepts local authority deposits.
- **Council Subsidiaries (non-specified)**
The Council will lend to its subsidiaries subject to approval of a business case by the Portfolio Holder, in consultation with the Director of Finance. Business cases must be accompanied by an independent assessment of viability, and be subjected to regular monitoring by the Director of Finance.

7.2 For details of Specified and Non-Specified Investments see below.

8. Use of Additional Information Other Than Credit Ratings

8.1 Additional requirements under the Code of Practice require the Council to supplement credit rating information. Whilst the above criteria rely primarily on the application of credit ratings to provide a pool of appropriate counterparties for officers to use, additional operational market information will be applied before making any specific investment decision from the agreed pool of counterparties. This additional market information (for example Credit Default Swaps, negative rating watches/outlooks) will be applied to compare the relative security of differing investment counterparties.

9. Time and Monetary Limits Applying to Investments

9.1 The time and monetary limits for institutions on the Council's Counterparty List summarised in the table below, are driven by the above criteria. These limits will cover both Specified and Non-Specified Investments.

10. Exceptional Circumstances

10.1 The criteria for choosing counterparties set out above provide a sound approach to investment in "normal" market circumstances. Whilst Members are asked to approve this base criteria above, under the exceptional current market conditions Director of Finance may temporarily restrict further

investment activity to those counterparties considered of higher credit quality than the minimum criteria set out for approval. These restrictions will remain in place until the banking system returns to “normal” conditions. Similarly, the time periods for investments will be restricted.

10.2 Examples of these restrictions would be the greater use of the Debt Management Deposit Account Facility (DMO) – a Government body which accepts local authority deposits, money Market Funds, and strongly rated institutions. The credit criteria have been amended to reflect these facilities.

11. Investment Strategy

11.1 In-House Funds - investments will be made with reference to the core balance and cashflow requirements and the outlook for short-term interest rates (i.e. rates for investments up to 12 months).

11.2 Investment Treasury Indicator and Limit - total principal funds invested for greater than one year. These limits are set with regard to the Council’s liquidity requirements and to reduce the need for early sale of an investment, and are based on the availability of funds after each year-end.

Treasury Indicator & Limit	2019/20	2020/21	2021/22	2022/23
Maximum Principal Sums invested for greater than one year (excluding property investment and loans to Council subsidiaries).	£10m	£10m	£10m	£10m

12 Investment Risk & Security Benchmarking

12.1 These benchmarks are simple guides to maximum risk and so may be breached from time to time, depending on movements in interest rates and counterparty criteria. The purpose of the benchmarks is that officers will monitor the current and trend position and amend the operational strategy to manage risk as conditions change. Any breach of the benchmarks will be reported, with supporting reasons in the Mid-Year or Annual Report.

12.2 In line with the Treasury Management Strategy, the Council has managed to invest with those institutions who offered the best rate and the investment portfolio is above the overall benchmark during the year to date.

Security

12.3 Security of the investments is measured by credit ratings, which is supplied by the three main credit rating agencies (Fitch, Moodys and Standard & Poors). Where investments are made to Council

subsidiaries (non-listed), the security is measured through a business case with independent viability assessment.

Liquidity

12.4 The Council set liquidity facilities/benchmarks to maintain:

- Authorised bank overdraft - nil.
- Liquid short term deposits of at least £0.5m available with a week's notice.

12.5 The Council has the benefit of instant access to its funds on the general account with Lloyds.

Yield

12.6 The measure of yield on Investments is a return above average bank rate. In accordance with the Code of Practice on Treasury Management this used as a performance indicator. The results of this indicator have been reported in the Treasury Annual Report and the mid-year report.

13. Reporting Requirements

13.1 End of Year Investment Report - the Council will report on its investment activity for the financial year completed as part of its Annual Treasury Management Report after the end of the financial year.

13.2 Mid-year Investment Report – the Council will report on its investment activity for that financial year as part of its Mid-Year Treasury Management Report at the end of September of that financial year.

13.3 Capital Strategy – the Council will produce the Strategy for the next three financial years towards the end of the current financial year.

14. Policy on the Use of External Service Providers

14.1 Link Asset Services are the appointed external advisors. The Council recognises that responsibility for treasury management decisions remains with the Council at all times and will ensure that undue reliance is not placed upon our external service providers. It also recognises that there is value in employing external providers of treasury management services in order to acquire access to specialist skills and resources. The Council will ensure that the terms of their appointment and the methods by which their value will be assessed are properly agreed and documented, and subjected to regular review.

14.2 The Council will also, from time to time, procure specialist advice for ad-hoc pieces of work; this will be procured in accordance with the Council's normal procedure rules.

15. Member and Officer Training

15.1 The increased Member consideration of treasury management matters and the need to ensure officers dealing with treasury management are trained and kept up to date requires a suitable training process for Members and officers. This Council has addressed this important issue by:

- i. Ensuring that officers attend suitable courses and seminars to keep their technical knowledge up to date;
- ii. Keeping up to date with CIPFA publications on Treasury Management.
- iii. Regular briefings both by email and face to face with the Council's Treasury advisors;
- iv. Reports and briefing sessions to Members on major changes to Treasury policies and strategies.

Annual Investment Strategy

The investment policy for the Council is:

Strategy Guidelines – the main strategy guidelines are contained in the body of the Capital Strategy and Treasury Management Policy

Specified Investments – these investments are sterling investments of not more than one-year maturity, or those which could be for a longer period but where the Council has the right to be repaid within 12 months if it wishes. These are considered low risk assets where the possibility of loss of principal or investment income is small. These would include sterling investments with:

- v. The UK Government (such as the Debt Management Account deposit facility, UK Treasury Bills or a Gilt with less than one year to maturity).
- vi. A local authority, parish council or community council.
- vii. A body that is considered of a high credit quality (such as a bank or building society) with a minimum short term rating of F-1 (or the equivalent) as rated by Standard and Poor's, Moody's or Fitch rating agencies or a Building Society with assets over £1,000m. Non rated Building Societies are non-specified investments.
- viii. Money Market Funds (triple AAA rated only).

Within these bodies, and in accordance with the Code, the Council has set additional criteria to set the time and amount of monies which will be invested in these bodies. These criteria are defined in the Treasury Management Strategy.

The ratings criteria and exposure limits are detailed at Schedule 1.

Non-Specified Investments – non-specified investments are any other type of investment (i.e. not defined as Specified above). The identification and rationale supporting the selection of

these other investments and the maximum limits to be applied are set out below. Non specified investments would include any sterling investments with:

Non Specified Investment Category	Limit (£ or %)
Any bank or building society that has a minimum long term credit rating of A (or equivalent), for deposits with a maturity of greater than one year (including forward deals in excess of one year from inception to repayment).	£5m
The Council's own banker if it fails to meet the basic credit criteria.	In this instance balances will be minimised as much as possible
<p>Building Societies not meeting the basic security requirements under the specified investments.</p> <p>The operation of some building societies does not require a credit rating, although in every other respect the security of the society would match similarly sized societies with ratings. The Council may use such building societies which were originally considered Eligible Institutions and have a minimum asset size of £5,000m, but will restrict these types of investments to £2m for up to six months.</p>	£2m
<p>Specific Public Bodies</p> <p>The Council can seek Member approval to make loans to other public bodies for periods of more than one year.</p>	£10m
<p>Loans to Council Subsidiaries</p> <p>The Council will lend to its subsidiaries subject to approval of a business case by the Portfolio Holder, in consultation with the Director of Finance. Business cases must be accompanied by an independent assessment of viability, and be subjected to regular monitoring by the Director of Finance.</p>	£10m limit for any single loan
<p>Other unspecified investments</p> <p>The strategy allows the Portfolio Holder, in consultation with the Director of Finance, in consultation with the Lead Member, the delegated authority to approve any variation to the Treasury Management Strategy during the year which may be brought about by investigating the opportunity to invest for greater than one year and also to invest in other investment instruments i.e Government bonds, Gilts and investment property with a view of to maximising the Council's returns without significantly increasing risk. This allows the addition of further unspecified investments, subject to conditions which will be generally similar to (e).</p>	£10m

The Council will also consider investment in property in accordance with its Property Investment Strategy. All property investments will be dependent on a standalone business case being proven.

The Monitoring of Investment Counterparties

The credit rating of counterparties is monitored regularly. The main rating agencies (Fitch, Moody's and Standard & Poor's) provide credit ratings for financial institutions. The Council receives credit rating information (changes, rating watches and rating outlooks) from Capita Asset Services Treasury Solutions as and when ratings change, and counterparties are checked promptly. The Council considers minimum short term ratings as key criteria in the choice of creditworthy investment counterparties; F1+, P-1 and A-1+ are the highest short term credit ratings of Fitch, Moody's and Standard & Poor's respectively. Minimum Short Term Ratings, where given, must be met for all categories. On occasion ratings may be downgraded when an investment has already been made. The criteria used are such that a minor downgrading should not affect the full receipt of the principal and interest. Any counterparty failing to meet the criteria will be removed from the list immediately by the Director of Finance, and if required new counterparties which meet the criteria will be added to the list.

For non-specified investments (e.g. e-f above) the progress of the entity against the approved, independently verified business case will be monitored by the Director of Finance.

Institution Type	Max Amount:			£10m	£10m	£10m	£10m	£10m
	Max Length:			10 Years	364 Days	6 Months	3 Months	1 Month
	Minimum Short Term Ratings							
	Fitch	Moody's	S&P					
UK Banks								
The Council's own Bankers	F1m	P-1	A-1	If Council's own bankers fall below the minimum long term criteria for UK banks, cash balances will be managed within operational liquidity constraints and balances will be minimised as much as possible.				
Wholly Owned Subsidiaries of UK Clearing Banks - Parent Ratings	F1	P-1	A-1		Backed up by AA(F), Aa2(M) and AA(S&P) long term credit rating	Backed up by single A long term ratings by all agencies	Backed up by lower than A long term rating	Backed up by lower than A long term rating
Partially Owned Subsidiaries of UK Clearing Banks - Parent Ratings	F1	P-1	A-1		Backed up by AA(F), Aa2(M) and AA(S&P) long term credit rating	Backed up by single A long term ratings by all agencies	Backed up by lower than A long term rating	Backed up by lower than A long term rating

UK Building Societies								
Either	F1	P-1	A-1		Backed up by AA(F), Aa2(M) and AA(S&P) long term credit rating	Backed up by single A long term ratings by all agencies	Backed up by lower than A long term rating	Backed up by lower than A long term rating
Or					Assets over £15,000m	Assets over £5,000m	Assets of £2,500m	Assets of £1,000m
Specific Public Bodies				As approved by Members				
Debt Management Deposit Facility (UK Government)						Unlimited		
Money Market Funds (AAA Rated)								£5m per fund
Municipal Bond Agency				As approved by Members				
UK Local Authorities				The Council can invest in all UK Local Authorities whether rated or not				

Notes:-

1. F1+, P-1 and A-1+ are the highest short term credit ratings of Fitch, Moody's and Standard and Poor's respectively.
2. Minimum Short Term Ratings - Where given, these must be met, for all categories (except RBS Group).
3. Building Societies - A Building Society has to meet either the ratings criteria or the assets criterion to be included in the category, not both.
4. Maximum amount is the maximum, in total, over all investments, with any one institution (with the exception of RBS Group).
