Good Afternoon Claire,

As agreed during the previous application, the Badger Survey should not be published on the basis that it contains information relating to the location of badger setts. Therefore, we have not uploaded the attached document as it will need to remain private and confidential.

The Ecological Appraisal contains a summary of the Badger Survey removing the confidential information which should be sufficient to allow the Badger Survey to remain confidential.

Please can you therefore ensure that the survey cannot be viewed by members of the public.

Let us know if there are any issues with this.

Many thanks,

Freddie Clarke
